

FACT SHEET

ULA EASY STAY is a lovingly renovated house in the quiet Omesberg area. The centre of Lech and the lifts are around five minutes' walk away. Timeless alpine architecture, generous living spaces and private balconies with views of the Lech mountains make it a relaxed base for a stay in the Arlberg.

Six individually designed apartments offer room for couples, families and groups of friends. Everyone has the freedom of their own apartment, with a living area and kitchen to cook, eat and spend time together as they like. The whole house can also be booked as one.

A sauna and an infrared cabin are available to all guests. A ski room and underground parking keep arrivals and ski days simple. The restaurant and bar of neighbouring ULA SIGNATURE can be used for an additional charge.

In winter, Ski Arlberg with more than 300 kilometres of pistes is right on the doorstep. Around 100 metres from the house, the cross-country trail and winter walking path run along the River Lech.

In summer, hiking trails begin almost at the front door, and the banks of the River Lech invite to long walks. Mountains and nature, the village and relaxed hours at home all lie close together, so days can be as active or as unhurried as guests like. Families and friends find the space to be together, or to go their own way and meet again at the kitchen table.
